

GWU OSM Mapathon

Student Workflow Cheat-Sheet

1. Create an OSM Account
 - o Log on to OSM with new account
 - o www.openstreetmap.org
 - o Navigate the OSM interface to familiarize yourself
2. Open OSM Tasking Manager (TM)
 - o <http://tasks.hotosm.org/>
 - o On the main page click on 'All Jobs', and search for GWU
 - 6221 Students: Davao City
 - 2104 Students: General Santos City
 - o Zoom in, Choose a tile, split if area is dense
 - o Launch an editing session using iD Editor
3. iD Editor in OSM
 - o Stay within the pink box with your edits
 - o Save your edits after each piece of infrastructure to avoid mapping conflicts
 - o Tag every piece of infrastructure
 - o Add the commit message #GWU #USAID tracing source: Bing
 - o You are required to digitize **200** pieces of infrastructure*
4. Mark as complete in OSM Tasking Manager (TM)
 - o When tile is complete, mark as done in TM (and not before)
 - o If you wish to return to cell, take a screenshot to remind you of the location in TM
5. Keep track of your work with Overpass Turbo
 - o <http://overpass-turbo.eu/>
 - o Zoom to the area you've been editing
 - o Use the Wizard to search for your OSM username (user:osmname)
 - o The number of points, lines and polygons you've created will be in the bottom right corner.
